

**ACKNOWLEDGEMENT OF NOTIFICATION
OF HAZARDOUS WASTE ACTIVITY
(VERIFICATION)**

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

NOTIFICATION OF HAZARDOUS WASTE ACTIVITY

INSTRUCTIONS: If you received a preprinted label, affix it in the space at left. If any of the information on the label is incorrect, draw a line through it and supply the correct information in the appropriate section below. If the label is complete and correct, leave items I, II, and III below blank. If you did not receive a preprinted label, complete all items "Installation" means a single site where hazardous waste is generated, treated, stored and/or disposed of, or a transporter's principal place of business. Please refer to the INSTRUCTIONS FOR FILING NOTIFICATION before completing this form. The information requested herein is required by law (Section 3010 of the Resource Conservation and Recovery Act).

Memo

To: The File

From: Cindy Gilder

RE: CTDO55506828

This facility originally notified as a generator and TSDF. A Part A application was never submitted, thus interim status never obtained. On Sept. 13, 1982 a request to change their status to generation only. This is because:

- 1) storage does not exceed 90 days
- 2) any treatment is in tanks prior to an NPDES discharge.

I have informed Robin Lind of the change in their status.

Re: CTD055506828
Delisle, Inc.
D/BA Metals Testing Company
South Windsor, Connecticut

Dear Cindy:

I have written this letter to clarify Metals Testing Company's position relative to the Federal (EPA) and State (CDEP) hazardous waste programs.

The notification form submitted by Metals Testing to EPA requires modification. The company indicated that they generate the following three hazardous wastes F001, F006 and U228. U228 should be deleted because the trichloroethylene is more appropriately listed as F001, a waste degreasing solvent. In the notification form the company indicated that they conduct the following hazardous waste activities (for F001 and F006):

- generation
- treat/store/dispose

Their designation as a T/S/D should be more fully examined relative to the following facts:

- storage of F001 is in containers and less than 90 days
- F006 is generated and accumulated in a concrete settling tank; the tank is a component of a wastewater treatment facility, which is regulated under the Clean Water Act

Based on the above considerations, Metals Testing Company is a temporary storage and "Permit By Rule" facility and is not required to comply with the financial requirements for T/S/D facilities.

If you have any questions on this matter or wish further information please call me at your earliest convenience.

Sincerely,

CONSULTING ENVIRONMENTAL ENGINEERS, INC.
